Diploma in Software Support (Co-op Program) — Mohawk College, Hamilton, ON | *Expected December 2026*

GPA: 87% | Dean's Honour List

WORK EXPERIENCE

Junior Developer (Co-op) — Operatic Agency | *January 2026 – August 2026*

- Developed and updated websites, web pages and applications using PHP, React and WordPress.
- Collaborated with developers, designers and project managers on client projects and updates.
- Participated in quality assurance, testing, debugging and implementation of new features.

Retail Athlete — Nike, Niagara-on-the-Lake, ON | *October 2023 – December 2025*

- Assisted 100+ customers per shift, delivering engaging, brand-aligned experiences.
- Trained new team members on product knowledge and sales techniques.
- Awarded MVP of the Month for outstanding performance and teamwork.
- Maintained accuracy in transactions and supported store operations under fast-paced conditions.

PROJECTS

Ticket Machine Simulation — Java | *Mohawk College* | *January–April 2025* | Project Link

- Developed a ticket machine simulation with user input handling, fare calculation and transaction processing.
- Used object-oriented programming and tested features for accurate ticket issuance and error handling.

Traffic Light Game — HTML, CSS, SVG | *Mohawk College* | *January–April 2025* | Project Link

- Created an interactive traffic light game using HTML, CSS and SVG graphics.
- Implemented game logic, user interaction and visual feedback for traffic-light behaviour.

Water Fountain Finder — HTML, CSS, JavaScript, Google Maps API | *Academic Project*

- Developed an interactive map of public drinking fountains with filters for bottle fillers and dog bowls.

The Board Game Vault — WordPress | *Academic Project*

- Built a fictional board-game lounge website featuring event information, job board, gallery and location map.
- Customized pages and site styling using WordPress and a child theme.
